

Perforated Angleboard®

Edge protection in a snap

- Reduces inventory and scrap
- Saves time
- User-friendly

Perforated Angleboard® is made of multiple plies of recycled paper laminated together, formed into a rigid right angle, and perforated to simply snap apart by hand to the ideal length. Easy to handle and available in different thicknesses and leg lengths, Perforated Angleboard reduces the need for multiple lengths of product protection—making it the perfect solution for edge protection and unitization applications.

- Uniform and random perforation placement
- Available in white or brown overwrap
- Custom printing

100% Recyclable

Angleboard products are made from 100% recycled materials.
