Handle U-Board
The simple, low cost solution to product protection
Handle U-Board™ laminated paperboard packaging provides superior edge protection to prevent product damage that can occur during shipping and handling. Its built-in handles create an effective way to move products from one location to another. Its preformed, mitered construction protects corners and eliminates any additional assembly time, creating a durable, more efficient way to protect your products.

Handle U-Board has a smooth surface and interior that is non-abrasive, making it ideal for a variety of applications. Handle U-Board can be treated with a variety of protective coatings that offer moisture resistance and corrosion protection. Color printing is also available for product identification and point-of-sale merchandising.

Specifications
